

Rwenzori Coffee co.

Introducing: Mahango

Altitude: 1800 – 2000 m.a.s.l.

Processing: Natural, hand-picked, sun-dried

Harvest: October 2021

Variety: A mixture of old varieties, and more recent introductions, SL14 and SL28

Cup profile: Very clean, well balanced. Tropical fruit with blueberry, cherry and vanilla sweetness

Mahango is at 1800 masl in the foothills of the Rwenzoris, with many farmers living and growing coffee well above this height. Agri Evolve established a buying centre here for the local farmers. Farmers typically have between 1 and 2 acres of land and coffee is their main cash crop.

Ripe, red coffee cherries are harvested daily during the harvest season and taken to the buying centre. The cherries are weighed, assessed for quality and the farmers are paid in cash. From here trucks carry the cherries to our Coffee Station. The cherries are floated and graded before being sun-dried. Our teams turn the cherries several times each day to ensure even drying whilst allowing the cherries to mature and develop their full rich flavours.

Mahango is supplied in 30 Kg Grainpro lined sacks

Basic Price: £7.30 per Kg
6 Sacks and above: £7.00 per Kg
20 Sacks and above: £6.70 per Kg

Delivery: Free for orders of 12 sacks and above. For smaller orders a small charge may be added. Please ask for details. No MOQ
