**Harvest:** April 2022

**Variety:** A mixture of old varieties, and more recent introductions, SL14 and SL28

**Cup profile:** Good balanced cup, sweet and fruity with a dark chocolate finish

**Kiraro** is an area at the southern end of the Rwenzori Mountains in the far west of Uganda close to the border with D R Congo. It is a densely populated area with many smallholder farmers growing food for their families. Coffee is the main cash crop and farmers depend on their coffee to earn the money to pay for school fees. We work closely with over 200 farmers in this area and during the harvest season we collect freshly harvested cherries from them on a daily basis. The cherries are transported to Nyabirongo where they are carefully processed and monitored until ready for hulling and export. We encourage farmers to use GAP - Good Agricultural Practices, to improve both the quality and quantity of the coffee grown. Often very old coffee trees need to be 'stumped' to promote fresh young growth which will lead to better yields.

### **Prices**

**Kirara** is supplied in 60 Kg sacks

1 – 3 bags      £7.80 per Kg

4 – 9 bags   £7.60 per Kg

10 bags and above   £7.40 per Kg
