Harvest: October 2022

Variety: SL14 and SL28 and some older regional landrace varieties

Cup profile: Rounded and creamy, well balanced, bright and light body, notes of tropical fruit, dark chocolate and honey.

Ibimbo is a village in the southern part of Kasese District close to the border with DR Congo. Farmers typically have between 1 and 2 acres of land and coffee is their main cash crop. Our Field Officers work with the farmers in groups throughout the Ibimbo area. Farmers are shown how to improve their yields by using good agricultural practices. The quality of the harvest has also been greatly improved by encouraging farmers to only pick the fully ripe cherries. Agri Evolve arrange transport by truck to our main Wet Mill at Nyabirongo where the cherries are sorted, graded and then put on raised beds for drying over a 3 week period. Finally the dried cherries are hulled and the green beans released. Once again they are graded and sorted with the highest quality and largest beans selected for our speciality grade lots. Bagged in Grainpro lined Jute bags ensures maximum freshness. After bagging there is a 2 month long journey by truck and ship to the UK.

This is Collins, one of our Field Officers, working in the Ibimbo area, training and supporting farmers.

Prices:

For 1 – 3 Bags £7.80 per Kg

For 4 – 9 Bags £7.50 per Kg

For 10 bags + £7.20 per Kg

Supplied in 60 Kg Grainpro lined jute bags

Small volumes from 5 Kg also supplied; please enquire.

Prices ex Warehouse.

Delivery per Pallet from £60 to £100 plus VAT depending on location.
