

## **Introducing: Kyondo**

**Altitude:** 1600 – 2000 m.a.s.l.

**Processing:** Natural, hand-picked, sun-dried

**Harvest:** April 2023

**Variety:** SL14 and SL28 and some older regional landrace varieties

**Cup profile:** Good body, very clean with a bright and complex acidity, sweet and fruity.

**Kyondo** is a sub county in the central part of the Rwenzoris. Agri Evolve has been working directly with the coffee farmers here for 5 years helping them to improve the quality and volume of their coffee production. We have established a number of buying centres in this area to help the coffee farmers have easy access to our processing facilities and to obtain a top price for a high quality product. One of these buying centres is Kyambithi.

Masereka Adonia is the Agri Evolve Promoter Farmer at the Buying Centre at Kyambithi. During the coffee harvest his role is to co-ordinate the farmers, to receive and record the coffee each farmer brings, and to liaise with Agri Evolve staff who will come to collect the coffee later in the day.

There are 1280 registered smallholder farmers in Kyondo sub county, with an average plot size of less than 1 acre. The land ranges from 1600 to 2000 masl and this high altitude produces large, sweet cherries which after careful processing at the Agri Evolve Wet Mill at Nyabirongo give rise to a typically fruity, well balanced natural coffee. The dried green coffee is graded, colour-sorted, de-stoned and packed ready for export to customers in the US, Europe and the UK.

### **Prices:**

For 1 – 3 Bags £7.80 per Kg

For 4 – 9 Bags £7.50 per Kg

For 10 bags + £7.20 per Kg

Prices ex Warehouse. Supplied in 60 Kg Grainpro lined jute bags.

Small volumes from 5 Kg also supplied; please enquire.

Delivery per Pallet from £60 to £100 plus VAT depending on location.
